Hi Ken,

Yes, they did sign a voluntary cleanup agreement with us in November 1997. I understand that that was a somewhat controversial decision within the Corps at that time, some saying they did not have the authority to sign such an agreement. But they did. They terminated it last September, with the same reasoning. Termination of the agreement essentially coincided with the news that the President's budget for FY 2020 had no money for Bradford Island work. Both were factors in our decision to request EPA's consideration of an NPL listing.

Bob

Hey Bob,

I don't recall if DEQs initial involvement with Bradford was under a voluntary cleanup program agreement with USACE – my recollection is no – is that correct?

Hi Ken - - hope all is well out there

Was Bradford part of a Voluntery cleanup program? If so, why/when/how did that relationship end?

Thanks -
